Mr Garrison

My Dear Friend,

60

Your timely letter was of great service. The managers of the Association - perhaps thinking me to be only an interested publisher - gave me but a few 15 minutes & 15 minutes for my class. But I used that well, and the impression upon the Teachers was decided & good.

One of the Vice-presidents, (Prof. Freeman of Brown Univ.) said my paper was the most important presented to the association. The managers acquiesced all my requests to appoint a committee &c., - till I showed some gentlemen your letter, on the last day, and then one gentleman moved the appointment of a committee &c., & it was done.

The work moves, - it may

well that I cannot push
it. If you have another
word for me, let me hear.

Sincerely & gratefully
Yours

Edwin Leigh
